Green Valley Families,

May 10, 2021

The year is almost over and yet we still have much to accomplish. Our students are working hard and many are attending tutorials to get the extra support. Summer school will be offered to all students who are failing, anyone who failed STAAR, or meet the district criteria in grades 1st -5th. If you haven't received a summer school application and your child meets the criteria, let the teacher know. PK/Kindergarten will also be able to attend summer school. Check with your child's teacher if you need an application.

Thank you, parents, for sending your children to school. However, our campus has struggled with attendance this year. We have put many actions in place to help improve student attendance. Raffles and treats are provided weekly to encourage our students to be at school. Since we put these actions in place our attendance has improved drastically. Don't let your child miss out on some of the great treats. Remember, students who have 18 absences or more are at-risk of being retained.

Our Kindergarten graduation will be on June 9th. In addition, our 5th grade students will be having a Graduation ceremony on June 10th. The ceremonies will start at 9:00am in the cafeteria. Unfortunately, due to COVID 19 parents will not be allowed to attend. However, parents will be able to participate virtually. Teachers will provide you with the link as we get closer.

Our 3rd -5th grade students will be required to take their STAAR test at school. On May 25th and May 27th, our PK-2nd grade students will have asynchronous classes at home. It will be very important for students to get online these days. Teachers will check their attendance.

Upcoming Events

May 21 st	3 rd -5 th Tutorial Ends
