	Show Assignment Sco	ore As:	As: Score 👻			Show Comments									

- **4.** Enter the dates you want to make the quiz available to student
- 5. Enter a quiz or "assignment" description
- Tuesday, Marc 6. Check the boxes to create the parameters of your quiz.
 - Auto score- It will grade T/F and Multiple choice automatically
 It will score them automatically if you do essay questions, but not till you have scored the essay questions

Show correct score- Do you want students to see the right answer after each question is answered?

Randomize Questions- This is a good idea in case you have students taking the quizzes in the computer lab.

Questions per page- I would suggest 5 questions per page to reduce cheating.

- 7. Click "add" assignment questions
- Choose the question type you want to use. Multiple choice, true/false, short answer And essay
- 9. Write your question
- 10. Select point value
- 11. Select possible answers/correct answer
- 12. Add any attachments

~If you want pictures or diagrams attach them by clicking attach on the right side ~If you want to add pictures to answers click the "attach" button next to the possible answer.

13. Repeat steps 8-12 by clicking

"Save and Add Another"

- 14. To end your test click "save and Back?
- 15. Congratulations on your first (or second) Skyward Quiz!
