CERTIFICATE OF BOARD

Galena Park Independent School District
Name of School District

Harris
County

101-910
Co.- Dist. No.

We, the undersigned, certify that the attached annual financial reports of the above named school district were reviewed and approved for the year ended August 31, 2016, at a meeting of the board of trustees of such school district on January 9, 2017.

President of the Board

Secretary of the Board

GALENA PARK INDEPENDENT SCHOOL DISTRICT

A Texas Recognized School District

14705 Woodforest Blvd.

Houston, TX 77015

832-386-1204

January 3, 2017

To the Board of Trustees and Taxpayers of the Galena Park Independent School District:

The Texas Education Code requires that all school districts file a complete set of financial statements with the Texas Education Agency (TEA) within 150 days of the close of each fiscal year. The financial statements must be presented in conformity with generally accepted accounting principles (GAAP) and audited by a firm of licensed certified public accountants in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Pursuant to that requirement, we hereby issue the Comprehensive Annual Financial Report of the Galena Park Independent School District (the "District") for the fiscal year ended August 31, 2016.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects. The District's financial statements have been audited by Whitley Penn, LLP, CPAs, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended August 31, 2016 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and, evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion and that the District's financial statements for the period ended August 31, 2016, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the District was part of a broader, federally-mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the District's separately issued Single Audit Report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

Profile of the District

The Galena Park Independent School District encompasses 33 square miles and is located in southeastern Harris County, Texas. Interstate Highway 10 bisects the District. While a small portion of the District is located inside the city limits of Houston, it also includes portions of the incorporated cities of Galena Park, Jacinto City, and the unincorporated communities of Greens Bayou, Woodland Acres, and the Cloverleaf Addition. The District is not included in any other governmental "reporting entity" since the Board of Trustees is elected by the public and has decision-making authority. Residents of the District elect a seven-member Board of Trustees. The respective Trustees serve overlapping three-year terms. There are no component units included in the reporting entity.

The purpose and responsibility of the District is to provide a thorough and efficient educational system for children, pre-kindergarten through grade 12, enrolled in public schools within its boundaries, whereby each child has access to programs and services that are appropriate to his or her educational needs. In addition to its regular educational program, the District offers comprehensive programs in the areas of career and technology education, special education, bilingual education, compensatory education and gifted and talented education. The District is accredited by the Texas Education Agency.

The District's 15 elementary schools, 5 middle schools, 2 high schools, 1 early college high school, and 1 alternative high school campuses are well-known for innovative programs and academic accomplishments. The District educates children from diverse backgrounds. The student body reflects the cultural diversity of Texas. Of the approximately 22,500 students enrolled, 78% are Hispanic, 15% are African American, 5% are White, and 2% identify themselves as Asian/Pacific Islander, American Indian or of more than one ethnicity.

The annual budget serves as the foundation for the District's financial planning and control. The budget development process begins in January with the Superintendent and administrative leadership team determining the budget parameters that will be used as a guide for the resource allocation process. All of the District's budget managers are required to submit requests for appropriations based on these parameters. Budget requests are forwarded to the Business Services Department for compilation and summarization. The Business Services Department personnel develop the draft budget and prioritize budget requests and potential budget reductions based on the principles established in the Superintendent's budget parameters. The preliminary budget is then presented and discussed with the Board of Trustees. The proposed budget must be prepared by August 20th for the September 1st fiscal year start date. The Board President must call a Board meeting for the purpose of discussing and adopting the budget and tax rate. A public notice of this meeting is required to be published at least 10 days, but not more than 30 days, prior to the public meeting.

The District maintains budgetary controls throughout its financial systems. The objective of the budgetary controls is to ensure compliance with legal provisions embodied in the official budget adopted by the Board. The Board adopts an official appropriations budget at the functional expenditure level for the general fund, debt service fund and the food service program included in the special revenue fund. Budgetary control is maintained at the organizational level by the encumbrance of estimated purchase amounts prior to the release of purchase orders to vendors. Outstanding encumbrances at the end of the fiscal year are treated as Assigned fund balance and are recorded as expenditures in the subsequent year upon receipt of the goods and services.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

Local Economy. The District is located in the heart of the Houston Ship Channel industrial area, and the majority of the labor force is employed at nearby chemical plants and oil refineries. The Houston Ship Channel is located just south of the District boundary, and many residents are employed in the industrial area surrounding the Channel. The Port of Houston is one of the largest ports in the world in terms of foreign waterborne tonnage and total tonnage. Each year, more than 8,000 vessels and 200,000 barges ship goods through the port, and more than 100 steamship lines offer service, linking Houston with 1,053 ports around the world. A vital element in the infrastructure of Houston and the region, the port maintains a high level of commercial prominence that solidifies its status as a major gateway to global commerce.

A cornerstone of the area economy, the Port of Houston is a 25-mile-long complex of diversified public and private facilities designed for handling general cargo, containers, grain and other dry bulk materials, project and heavy-lift cargo, and other types of cargo. Overall, more than 1,174,567 jobs throughout Texas are directly and indirectly related to the diverse global trade and commerce activities at the port. In addition, the port generates nearly \$264.9 billion of economic activity in Texas each year. Additionally, more than \$5 billion in state and local tax revenues are generated by business activities related to the port.

Economic Outlook. Houston's energy, healthcare, transportation and distribution sectors have supported a continuous growth in our tax base. However, the depressed oil and gas prices, along with reduced drilling activities have caused the District's tax base to remain relatively stagnant for fiscal year 2016. In regards to our tax base, the outlook for 2017 is more promising. On November 30th, OPEC announced it would cut crude output by 1.2 million barrels per day. That along with a cut in production from the Non-OPEC producers, should equate to a reduction of 1.8 million barrels per day which will take effect on January 1, 2017, and remain in effect for at least the first six months of the year. This reduction in oil reserves will cause the oil and gas prices to increase which will have a positive impact on our tax base. The increase in oil and gas prices, in conjunction with numerous petrochemical expansion projects in the Houston Ship Channel area should produce higher tax values in the near future.

Access. The District is connected to Downtown Houston via Interstate 10 and is also linked to the entire Houston metropolitan area via the Sam Houston Toll Road. Both of these thoroughfares pass through the center of the District. The District's proximity to Houston provides the area with access to one of the nation's leading centers for medical education and research, many colleges and universities, a dynamic cultural arts community, excellent recreational opportunities, and a national center of commerce, world trade and corporate management.

Relevant Financial Policies

Budget. Budget planning is an integral part of overall program planning so that the budget effectively reflects the District's programs and activities, and provides the resources to implement them. In the budget planning process, general educational goals, specific program goals, and alternatives for achieving program goals are considered. Budget planning and evaluation are continuous processes and are a part of each month's activities.

Fund Balance. Recognizing fund balance as key in maintaining a strong financial position, the Board policy regarding fund balance stipulates a goal of maintaining an adequate fund balance. The level of adequacy for the general fund unassigned fund balance is defined as 12% of the current budget, while the debt service fund is defined as 15% of the current year debt service requirements.

Financial Planning. The District is subject to revenue limitations as outlined in the Texas Education Code. The revenues are derived from a target revenue formula based primarily on student attendance, adjusted for funding “weights” associated with the students’ educational settings. Under the target revenue system, the District’s maintenance and operations revenues from property taxes and state aid are capped. As collections from property taxes increase, state aid is reduced by a similar amount. On an ongoing basis, the District adjusts future projections as new data becomes available. The District maintains a Five-year Technology plan, Multi-year Fleet Replacement plan, Multi-year Fine Arts refresh plan and a Long- range facilities plan.

Awards and Acknowledgements

Our District as a whole received many recognitions and achievements during the 2015-16 school year. Starting with our Athletic Department, in December 2015, our North Shore Senior High School Mighty Mustangs Football Team claimed the Class 6A, Division I championship for the State of Texas, making us all very proud. In March 2016, our North Shore Senior High School Girls Basketball Team fought hard making it to the State Semi-Finals in a showdown for the State of Texas, Class 6A, Division I Title.

In May 2016, one of our outstanding teachers at Green Valley Elementary, Hilda Nañez, was named the Rising Star from the H-E-B Excellence in Education Awards in San Antonio, Texas. This award earned her \$5,000 for herself and \$5,000 for her school. The District was also named a 2016 regional finalist and competed with five other large school districts for H-E-B Large District of the Year in the same Excellence in Education recognition program.

In May 2016, the District held a successful bond referendum with voters approving a \$290 million dollar bond proposal. The district will use the bond to address aging facilities, student safety and 21st century education. Plans will include the replacement of 6 elementary campuses, a new North Shore Senior High School 10th Grade Center, renovations and upgrades to all other campuses and facilities, along with land acquisition for facility opportunities. In the Fall of 2016, the District issued the first installment of the bond with a \$90 million dollar issuance to begin phase one.

In June 2016, our superintendent, Dr. Angi Williams, was selected as the 2016 Region 4 Superintendent of the Year. The Region IV Service Center (Region 4) serves a seven-county area composed of 50 public school districts and 41 open-enrollment charter schools, representing more than 1.1 million students, 91,000 educators, and 1,500 campuses. In August 2016, Dr. Williams was also named one of five finalist for the 2016 Texas Association of School Board’s Superintendent of the Year. The Superintendent of the Year award recognizes exemplary superintendent for their strong leadership skills, dedication to improving the quality of education in their school districts, commitment to public support and involvement in education, and ability to build good employee relations among teachers and staff members.

The TEA has awarded the District a “Superior” rating for the year ended August 31, 2015. This is the 14th year of the State’s financial accountability rating system for school districts (School FIRST). The rating is based upon an analysis of staff and student data reported for the 2014-15 school year and budgetary and actual financial data for the fiscal year ended August 31, 2015.

In February 2016, the District’s Purchasing Department was recognized with the Award of Merit for Purchasing Operations by the Texas Association of School Business Officials. The award recognized a district’s achievement in implementing best practices in the area of purchasing.

The District was also recognized by the Association of School Business Officials International (ASBO) as a first year recipient of the ASBO International’s *Pathway* to the Meritorious Budget Award (MBA) for the 2015-16 Budget document. The award recognizes excellence in school budget presentation.

The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting and the Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its Comprehensive Annual Financial Report (CAFR) for the year ended August 31, 2015.

In order to be awarded the certificates, a governmental unit must publish an efficiently organized Comprehensive Annual Financial Report, the contents of which must conform to program standards. The report must satisfy both generally accepted accounting principles and applicable legal requirements. The District has received the ASBO award for five consecutive years and the GFOA award for four years. The certificates are valid for a period of one year only. We believe that our current CAFR continues to meet the requirements of both certificate programs, and it will be submitted accordingly to ASBO and GFOA to determine its eligibility for a 2016 certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the Business Services Department. We would like to express our appreciation to all members of the department who assisted and contributed to the preparation of this report. Credit also must be given to the Board of Trustees for their unfailing support for maintaining the highest standards of professionalism in the management of the District's finances. Finally, we would like to thank the residents of the District for their support of and belief in our public school system, and the teachers and campus teams who provide the quality education for which our District is known.

Respectfully submitted,

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
Galena Park Independent School District
Galena Park, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Galena Park Independent School District (the "District") as of and for the year ended August 31, 2016, and the related notes to financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of August 31, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 7 through 15 and the Budgetary Comparison Schedule and Pension Information on pages 56 through 61 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information (as described in the accompanying table of contents) and the other information, such as the introductory and statistical section are presented for the purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information (as described in the accompanying table of contents) is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit, the procedures performed as described above, the other supplementary information (as described in the accompanying table of contents) is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

To the Board of Trustees
Galena Park Independent School District

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 3, 2017, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

(This page intentionally left blank.)

GALENA PARK INDEPENDENT SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Galena Park Independent School District (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended August 31, 2016.

Financial Highlights

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$142,042,494 (net position). Of this amount, \$58,897,199 (unrestricted net position) may be used to meet the District's ongoing obligations to students and creditors.
- The District's total net position increased by \$18,113,857 in comparison to with the prior year.
- As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$150,431,764, an increase of \$18,646,131 in comparison with the prior year. The increase in governmental fund balances was primarily due to the increase in the general fund balance of \$15,578,513.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$82,326,206, or 41.2 percent of total general fund expenditures.
- The District's total bonded debt decreased by \$13,039,617 or 7.1 percent during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements.

Government-wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statement of Activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

GALENA PARK INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

The government-wide financial statements of the District are principally supported by taxes and intergovernmental revenues (*governmental activities*). The governmental activities of the District include Instruction, Instructional Resources and Media Services, Curriculum and Instructional Staff Development, Instructional Leadership, School Leadership, Guidance, Counseling, and Evaluation Services, Social Work Services, Health Services, Student Transportation, Food Services, Extracurricular Activities, General Administration, Facilities Maintenance and Operations, Security and Monitoring Services, Data Processing Services, Community Services, Interest on Long-term Debt, Bond Issuance Costs and Fees, Facilities Acquisition and Construction, and Payments to Appraisal Districts.

The government-wide financial statements can be found on pages 18 through 19 of this report.

Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains twenty-four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, debt service fund and child nutrition fund, all of which are considered to be major funds. Data from the other twenty-one governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in the financial statements. The District adopts an annual appropriated budget for its general fund, debt service fund, and child nutrition special revenue fund.

The basic governmental fund financial statements can be found on pages 20 through 23 of this report.

GALENA PARK INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Proprietary Fund

The District maintains an internal service fund, one type of proprietary fund. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the District's various funds and functions. The District uses an internal service fund to account for its print shop copier services. Because this service predominantly benefits governmental functions, it has been included within *governmental activities* in the government-wide financial statements.

Proprietary fund statements provide the same type of information as the government-wide financial statements, only in more detail. The internal service fund financial statements provide separate information for the print shop.

The basic proprietary fund financial statements can be found on pages 24 through 26 of this report.

Fiduciary Fund

The fiduciary funds are used to account for resources held for the benefit of students. The fiduciary fund is *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the District's own programs. The Agency fund is custodial in nature (assets equal liabilities) and does not involve measurement of results of operation. In addition, the District's private - purpose trust fund reports a trust arrangement under which principal and income benefit individuals.

The basic fiduciary fund financial statement can be found on pages 27 through 28 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 29 through 53 of this report.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information that further explains and supports the information in the financial statements. The required supplementary information relates to comparison of the original adopted budget, the final amended budget, and the actual amounts for the fiscal year. This is required supplementary information for the general fund and any major special revenue funds. In fiscal year 2015 the District implemented GASB Statements Nos. 68 and 71 which add required new schedules related to pensions. The required supplementary information can be found on pages 56 through 61 of this report.

Other Information

The combining and individual fund statements and schedules and other supplementary information are presented immediately following the required supplementary information and can be found on pages 64 through 80 of this report.

GALENA PARK INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a District's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows by \$142,042,494 at the close of the most recent fiscal year.

The District's investment in capital assets (e.g., capitalized bond and debt issuance costs, land, buildings and improvements, furniture and equipment, construction in progress); less any outstanding related debt used to acquire those assets totaled \$71,473,347. The District uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Galena Park Independent School District's Net Position

	2016	2015
Current and other assets	\$ 170,032,690	\$ 149,655,864
Capital assets	240,114,984	245,872,368
Total Assets	410,147,674	395,528,232
Deferred Loss on Refunding	2,832,809	3,485,616
Deferred Outflows - pension	22,678,027	6,205,793
Total Deferred Outflows of Resources	25,510,836	9,691,409
Current liabilities	10,990,806	7,833,305
Long term liabilities	278,959,222	265,606,081
Total Liabilities	289,950,028	273,439,386
Deferred inflows - pension	3,665,988	7,851,618
Total Deferred Inflows of Resources	3,665,988	7,851,618
Net Position:		
Net investment in capital assets	71,473,347	64,843,915
Restricted	11,671,948	9,080,679
Unrestricted	58,897,199	50,004,043
Total Net Position	\$ 142,042,494	\$ 123,928,637

Net position of \$11,671,948 is restricted for state, federal and local programs, debt service. The remaining balance of *unrestricted net position* \$58,897,199 may be used to meet the District's ongoing obligations to students and creditors. The District's net position increased by \$18,113,857 during the current fiscal year due to an increase in property tax revenues in comparison to the prior year.

GALENA PARK INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Governmental Activities

Governmental activities increased the District's net position by \$18,113,857. Key elements of this increase are as follows:

Revenues are generated primarily from two sources. Grants and contributions (program and general revenues totaling \$132,184,785 represent 51 percent of total revenues and property taxes of \$121,304,611 represent 47 percent of total revenues. The remaining \$5,655,912 is generated from charges for services, investment earnings, and miscellaneous revenues. Property tax revenues increased by approximately \$8.5 million due to higher appraised tax values.

The primary functional expense of the District is instruction, which at \$119,286,904 represents 49 percent of total expenses. Facilities maintenance and operations expenses of \$27,253,373 represent 11 percent of total expenses. Food services expenses of \$15,007,128 represent 6 percent of total expenses. The remaining individual functional categories of expenses are each less than 6 percent of total expenses.

Financial Analysis of the Government's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a District's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$150,431,764, an increase of \$18,646,131 in comparison with the prior year. The increase in ending governmental fund balances is primarily due to increases in the general fund.

The general fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$82,326,206, while total fund balance reached \$138,319,826. As a measure of the general fund's liquidity, it may be useful to compare both unassigned, fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 41.2 percent of total general fund expenditures, while total fund balance represents 69 percent of that same amount.

The increase in the general fund's fund balance of \$15,578,513 was primarily due to the increase in property taxes due to higher appraisal values and a slight increase in the average daily attendance which increased our State funds.

The debt service fund has a total fund balance of \$7,539,501, all of which is restricted for the payment of debt service. The net increase in the debt service fund balance during the current year of \$3,514,871 was primarily due to the increase in property taxes due to higher appraisal tax values.

The child nutrition fund has a total fund balance of \$ 3,447,393, of which \$411,560 is non-spendable inventory and \$3,035,833 is restricted for the child nutrition program. The net decrease in the child nutrition fund balance during the current year of 366,017 was primarily due to an increase in capital improvements in campus kitchens and student nutrition serving areas.

GALENA PARK INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Proprietary Fund

The District's proprietary fund financial statement, internal service printing services, provides detail information about the profitability of the Print Shop Fund. At the end of the year, net position was \$120,702, an increase of \$24,884 compared to the prior year. The net change in fund's position is eliminated and allocated to the governmental expenses in the government-wide financial statements.

General Fund Budgetary Highlights

Actual expenditures were \$3.3 million below final budgeted amounts. The positive variance was primarily due to the positive variances in facilities maintenance and operations and student transportation of \$1.1 million and \$721 thousand, respectively. To provide further analysis, capital outlay, other operating expenditures and professional and contracted services were lower than anticipated which allowed the District to come under budget by approximately \$1.5 million, \$929 thousand and \$918 thousand, respectively.

Resources available were \$3.32 million over the final budgeted amounts. This favorable variance was due to higher actual revenues than final budgets in local and state revenue categories of \$693 thousand, and \$2.76 million respectively. Federal revenues were \$129 thousand less than final budgeted amounts. The review of the final amended budget versus actual for the general fund reflected a positive budget variance in the amount of \$6.7 million, thus eliminating the need to draw upon existing fund balances.

Capital Assets and Long-term Liabilities

Capital Assets

The District's investment in capital assets for its governmental type activities as of August 31, 2016, amounts to \$240,114,984 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, furniture and equipment and vehicles. The total decrease in the District's investment in capital assets for the current fiscal year was \$5,757,385. Changes in capital assets are shown below:

Galena Park Independent School District's Capital Assets

	Balance September 1, 2015	Additions	Retirements and Transfers	Balance August 31, 2016
Land	\$ 14,045,830	\$ 3,645,384	\$ -	\$ 17,691,214

Additional information on the District's capital assets can be found in Note 4 on page 41 of the notes to the financial statements.

GALENA PARK INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Long-term Liabilities

At the end of the current fiscal year, the District had \$171,474,446 in bonded debt outstanding, a decrease of \$13,039,617 over the previous year. The District's bonds are sold with an "AAA" rating and are guaranteed through the Texas Permanent School Fund Guarantee Program or by a municipal bond insurance policy. The underlying rating of the bonds from Standard and Poor's is "A+" and from Moody's Investors Service is "Aa2" for general obligation debt.

Changes to long-term debt, for the year ended August 31, 2016 are as follows:

Galena Park Independent School District's Long-term Liabilities

	Balance September 1 , 2015	Additions	Retirements	Balance August 31, 2016
General obligation bonds	\$ 177,169,351	\$ -	\$ (11,511,817)	\$ 165,657,534
Plus amounts for issuance premiums	5,233,360	-	(796,281)	4,437,079
Qualified zone academy bonds	2,111,352	-	(731,519)	1,379,833
Accreted interest on premium compound interest bonds	54,215,247	5,078,998	(2,503,184)	56,791,061
Accrued compensated absences	1,209,750	267,982	(177,702)	1,300,030
	<u>\$ 239,939,060</u>	<u>\$ 5,346,980</u>	<u>\$ (15,720,503)</u>	<u>\$ 229,565,537</u>

Additional information on the District's long-term liabilities can be found in Note 6 on pages 42 through 44 of the notes to the financial statements.

Economic Factors and Next Year's Budgets and Tax Rates

The District's Board of Trustees and Administrators considered a variety of factors when adopting the budget for the 2016-17 fiscal year. Those factors include property values, enrollment trends, state funding, the economy, and legislative mandates. The following assumptions were taken into account when adopting the general operating budget for 2016-17.

- The tax rate for 2016-17 is \$1.5633 with \$1.2433 applicable to maintenance and operations and \$0.3200 for debt service. The debt rate reflects an increase of \$0.0499 from the prior year. The increase is necessary due to the increase in debt service requirements resulting from the sale of \$90,000,000 in new bonds during the Fall of 2016.
- Taxable values used for the 2016-17 adopted budget are expected to increase by approximately 2% above 2015-16 levels. The budgeted property tax revenues were based on a taxable value of \$8.3 billion with a 97.5% collection rate.
- The district's 2016-17 average daily attendance is estimated to remain unchanged from 2015-16 at 21,001.

State Funding available for appropriation in the 2015-16 and 2016-17 budgets increased by approximately \$100 per student due to changes in the Foundation School Program funding formulas. The formula changes were included in House Bill 1 passed during the 84th Legislative session. Senate Bill 1 included provisions to cut taxes for homeowners by increasing the mandatory state homestead exemption by \$10,000 increasing the total state exemption to \$25,000. The legislature did authorize modifications in property valuations used in the state aid formulas to offset the loss in local property tax revenue.

GALENA PARK INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

With voter approval from a tax ratification election held in December 2007 the maintenance and operations tax rate increased from \$1.1134 to \$1.1834 per \$100 valuation. A second successful tax ratification election in September 2012 increased the maintenance and operations tax rate an additional .5999 cents for a total rate of \$1.2433. Both of the successful elections and resulting tax rate increases generate additional property tax revenue and maximize the amount of state aid the district can receive utilizing the current state funding formulas. The additional funds generated from these elections continue to help the district in meeting ongoing financial needs.

Amounts available for appropriation in the general fund are \$204.7 million, an increase of \$6.6 million from the previous year. Expenditures are budgeted to increase 3.3% to \$204.7 million. The majority of the increase in budgeted expenditures was to fund payroll cost associated with new positions needed to support increasing special populations of students and to fund a 2% of midpoint general pay increase for teachers and all other staff. A balanced budget was adopted for 2016-17. If these budgetary estimates are realized, the District's General Fund balance will remain unchanged by August 31, 2017.

Request for Information

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. Questions concerning any of the information provided in this report, or requests for additional information, should be addressed to the Office of the Executive Director of Budget and Financial Support Services, Galena Park Independent School District, 14705 Woodforest Blvd, Houston, TX 77015.

RECONCILIATION OF BALANCE SHEET FOR GOVERNMENTAL FUNDS TO
STATEMENT OF NET POSITION
August 31, 2016

Exhibit C-2

Data Control Codes		
	Total fund balance, governmental funds	\$ 150,431,764
	Amounts reported for governmental activities in the statement of net position (A-1) are different because:	
	Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds.	
1	Capital assets at historical cost, net of accumulated depreciation, where applicable	240,114,984
2	Property taxes receivable have been levied and are due this year, but are not available soon enough to pay for the current period's expenditures, these property taxes and related penalty and interest amounts (net of allowance for uncollectible accounts).	8,853,573
3	Deferred loss on refunding	2,832,809
4	Deferred inflows and outflows related to pension liability	19,012,039
	Long-term liabilities, including bonds payable, are not due and payable in the current period, and therefore are not reported as liabilities in the funds. Long-term liabilities at year end consist of:	
5	General obligation bonds	(167,037,367)
6	Premiums on issuance	(4,437,079)
7	Accreted interest on premium compound interest bonds	(56,791,061)
8	Accrued compensated absences	(1,300,030)
9	Accrued interest payable	(364,155)
10	Net pension liability	(49,393,685)
11	Addition of Internal Service fund net position	<u>120,702</u>
19	Total net position - governmental activities	<u><u>\$ 142,042,494</u></u>

See Notes to the Financial Statements.

Exhibit C-4

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND
CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE
STATEMENT OF ACTIVITIES**

For the Year Ended August 31, 2016

**Data
Control
Codes**

	Net change in fund balances - total governmental funds (from C-3)	\$ 18,646,131
	Amounts reported for governmental activities in the statement of activities (B-1) are different because:	
	Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.	
1	Governmental funds capital outlay	7,449,255
2	Governmental activities depreciation expense	(11,210,120)
3	Governmental funds report the entire sales price (proceeds) from sale of an asset as revenue because it provides current financial resources. In contrast, the Statement of Activities reports only the gain or loss on the sale of the assets. Thus the change in net position differs from the change in fund balance by the book value of the assets sold and disposed. The District disposed of certain assets that resulted in a loss.	(1,996,520)
4	Property tax revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(1,521,681)
5	Pension contributions made after the net pension liability date are reported as expenditures in the governmental funds and are reported as deferred outflows on the face of the statement of net position	4,714,248
6	Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	12,243,335
	Some expenses reported in the statement of activities do not require the use of current financial resources and these are not reported as expenditures in governmental funds:	
7	Decrease in interest payable not recognized in fund statements	66,720
8	Increase in long-term portion of accrued compensated absences	(90,280)
9	Accreted interest on capital appreciation bonds	(5,068,996)
10	Amortization of premiums, deferred loss on refunding	143,474
11	Capital appreciation bonds matured and related accreted interest	2,503,184
12	Pension expense for the pension plan measurement year	(7,789,776)
13	Internal service funds are used by management to charge the costs of certain activities, such as Copy Center, to individual funds. The net revenue (expense) of the internal service funds is reported with governmental funds. (see D-2)	<u>24,883</u>
	Change in net position of governmental activities (see B-1)	<u><u>\$ 18,113,857</u></u>

See Notes to the Financial Statements.

Note 1 - Summary of Significant Accounting Policies

The Galena Park Independent School District (the “District”) is an independent public educational agency operating under applicable laws and regulations of the State of Texas. The District is autonomously governed by a seven member Board of Trustees elected by the District’s residents.

The District prepares its basic financial statements in conformity with Generally Accepted Accounting Principles (GAAP) promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources identified in *Statement of Auditing Standards No. 69* of the American Institute of Certified Public Accountants. Additionally, the District complies with the requirements of the appropriate version of the Texas Education Agency (TEA) *Financial Accountability System Resource Guide* (FASRG) and the requirements of contracts and grants of agencies from which it receives funds.

The District receives funding from local, state and federal government sources and must comply with the requirements of these funding source entities.

Reporting Entity

The District is considered an independent entity for financial reporting purposes and is considered a primary government. As required by generally accepted accounting principles, these basic financial statements have been prepared based on considerations regarding the potential for inclusion of other entities, organizations or functions as part of the District’s financial reporting entity. Based on these considerations, the District’s basic financial statements do not include any other entities. Additionally, as the District is considered a primary government for financial reporting purposes, its activities are not considered a part of any other governmental or other type of reporting entity.

Considerations regarding the potential for inclusion of other entities, organizations or functions in the District’s financial reporting entity are based on criteria prescribed by generally accepted accounting principles. These same criteria are evaluated in considering whether the District is a part of any other governmental or other type of reporting entity. The overriding elements associated with prescribed criteria considered in determining that the District’s financial reporting entity status is that of a primary government are: that it has a separately elected governing body; it is legally separate; and it is fiscally independent of other state and local governments. Additionally, prescribed criteria under generally accepted accounting principles include: considerations pertaining to organizations for which the primary government is financially accountable and considerations pertaining to other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities* normally are supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment, are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to students or users who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Note 1 - Summary of Significant Accounting Policies (continued)

Government-wide and Fund Financial Statements (continued)

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Interfund activities between governmental funds and between governmental funds and proprietary funds appear as due to/due from on the governmental fund balance sheet and proprietary fund statement of net position and as other resources and other uses on the governmental fund statement of revenues, expenditures and changes in fund balances and on the proprietary fund statement of revenues, expenses and changes in fund net position. All interfund transactions between governmental funds and between governmental funds and internal service funds are eliminated on the government-wide statements. The District has no interfund services provided and used between functions that would be program revenue which would not be eliminated in the process of consolidation. Interfund activities between governmental funds and fiduciary funds remain as due to/due from on the government-wide statement of net position.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The District's fiduciary funds include both agency funds and private-purpose trust funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. These funds use the accrual basis of accounting to recognize receivables and payables. Private-purpose trust funds employ the same economic resources measurement focus and accrual basis of accounting as do proprietary funds.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Grant revenues and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental funds:

- The *general fund* is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Note 1 - Summary of Significant Accounting Policies (continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

- The *debt service fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.
- The *child nutrition fund* is used to account for federal reimbursement revenues originating from the United States Department of Agriculture and fees from child and adult meals. With respect to the food service funds, funds are rolled over from year to year for use in the program.

Additionally, the District reports the following fund types:

- The *special revenue funds* are used to account for resources restricted to, or committed for specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a special revenue fund. Generally, unused balances are returned to the grantor at the close of the specified project periods. With respect to the campus activity funds, funds are rolled over from year to year for use in the program.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

- The *capital projects fund* is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.
- The *internal service fund* is used to account for the operations of the District's print shop.
- The *private-purpose trust fund* is used to account for donations for scholarship funds that are received by the District that are to be awarded to current and former students for post-secondary education purposes.
- The *agency fund* is used to account for assets held by the District as an agent for student organizations. The fund is custodial in nature (assets equal liabilities) and does not involve measurement of results of operation.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as *program revenues* include 1) charges to students or users for goods, services, or privileges provided and 2) operating grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes and investment income.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service fund are charges to the funds for print shop services. Operating expenses for the internal service fund include the cost of services and administrative expenses. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Note 1 - Summary of Significant Accounting Policies (continued)

Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, certificates of deposit, external investment pools (TexPool, Lone Star and LOGIC) and money market funds.

The District categorizes fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; level 3 inputs are significant unobservable inputs. The District's local government investment pools are recorded at amortized costs as permitted by GASB Statement No. 79, *Certain Investment Pools and Pool Participants*.

Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Property tax receivables include unpaid property taxes at year-end along with penalties and interest assessed on these unpaid taxes, and are shown net of an allowance for uncollectible taxes. Revenues from property taxes are recognized when levied to the extent they are available. The District considers property taxes as available when collected. However, not all outstanding property taxes are expected to be collected within one year of the date of the financial statements. Property values are determined by the Harris County Appraisal District as of January 1 of each year. Prior to September 1 of each year, the District must adopt its annual budget and as soon thereafter as practicable, shall adopt a tax rate thus creating the tax levy. Property taxes for the current calendar year are levied on approximately October 1 of each year and are payable by January 31 of the following year. Property tax receivables are recorded as of the date levied. Unpaid taxes become delinquent on February 1 and a tax lien on real property is created as of July 1 of each year.

The tax rates applicable to the maintenance and operation and debt service for fiscal year 2016 were \$1.24330 and \$0.27010, respectively, based on a taxable value of \$8,142,261,887. Uncollected taxes are recorded as unavailable revenue in the fund financial statements net of the related allowance for uncollectible taxes.

Inventories and Prepaid Items

Inventories consisting of supplies and materials are valued at weighted average cost and they include maintenance, transportation, office and instructional supplies, and food service commodities. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Food service commodity inventory is recorded at fair market value on the date received. Commodities are recognized as revenues in the period received when all the eligibility requirements are met. Commodity inventory items are recorded as expenditures when distributed to user locations. A portion of fund balance is considered non-spendable to reflect minimum inventory quantities considered necessary for the District's continuing operations.

Beginning in 2014, the District no longer uses the consumption method as it relates to prepaid items. The District has opted to use the purchase method and in accordance with GAAP, prepaid items are not required to be recorded on the District's balance sheet.

Note 1 - Summary of Significant Accounting Policies (continued)

Capital Assets

Capital assets, which include land, construction in progress, buildings and improvements, furniture and equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the governmental column in the government-wide financial statements. The District's infrastructure includes parking lots and roads associated with various buildings. The cost of the infrastructure was initially capitalized with the building cost and is being depreciated over the same useful life as the building. Capital assets are defined by the District as assets with an initial, individual cost that equals or exceeds \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings and improvements, and furniture and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and Improvements	40 years
Furniture, fixtures and equipment	10 years
Vehicles	10 years

Compensated Absences

The District has a vacation pay policy for non-contractual employees (administration and other full-time employees) whereby eligible employees shall receive vacation pay from one to fifteen days, dependent upon the number of years of service, after the completion of a year's service in the District. All vacation days must be used during the year and unused vacation pay cannot be carried over to future periods.

The District's sick leave policy is coordinated with a state mandated sick leave policy whereby substantially all full-time teaching and paraprofessional employees receive up to twelve days sick leave per year. State sick leave days accrue at the rate of five per year without limit to accumulation. The unused balance may be transferred to another District within the Texas public school system. All state sick leave days must be used prior to retirement from the Texas public school system to receive the benefit. The District pays for all state sick leave days used.

Additional local sick leave of up to seven days per year accrues to employees eligible to receive state mandated sick days. All employees not eligible for state mandated sick days may receive up to twelve days of local sick leave. Local sick leave may be accrued without limitation; however, the District does not pay accumulated local sick leave upon termination with the District. Employees are eligible to receive local sick leave upon qualified retirement from the District, dependent upon the number of years of service with the District.

Note 1 - Summary of Significant Accounting Policies (continued)

Compensated Absences (continued)

Upon retirement, under an eligible retirement plan, an employee is eligible for reimbursement of accrued local sick leave based on the following schedule:

Years of Service	Salary Service Reimbursed	Maximum Reimbursement
Less than 20	\$100/day for up to 50 local days	\$5,000
20–30	\$100/day for up to 75 local days	\$7,500
31-35	\$100/day for up to 100 local days	\$10,000
Over 35	\$100/day for up to 175 local days	\$17,500

Compensated absences are liquidated from the General Fund when due and payable.

Long-term Obligations

The District’s long-term obligations consist of bond indebtedness and compensated absences. In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities column on the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the bonds outstanding method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as an expense in the year of issuance.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

The current requirements for general obligation bonds principal and interest expenditures are accounted for in the debt service fund. The current requirements for compensated absences and Qualified Zone Academy Bonds are liquidated in the general fund.

Fund Equity

Beginning with fiscal year 2011, Galena Park Independent School District implemented GASB Statement No. 54 “Fund Balance Reporting and Governmental Fund Type Definitions”. This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government’s fund balances more transparent. The Statement also clarifies the governmental fund definitions. The following fund balance classifications describe the relative strength of the spending constraints:

Nonspendable fund balance – amounts that are not in spendable form or are required to be maintained intact. As such, inventory has been properly classified in the Governmental Funds Balance Sheet (Exhibit C-1).

Note 1 - Summary of Significant Accounting Policies (continued)

Fund Equity (continued)

Restricted fund balance – amounts that can be spent only for specific purposes because of local, state or federal laws, or externally imposed conditions by grantors or creditors.

Committed fund balance – amounts constrained to specific purposes by the District itself, using its highest level of decision-making authority (i.e. the Board of Trustees). To be reported as committed, amounts cannot be used for any other purposes unless the District takes the same highest level of action to remove or change the constraint. The District establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. The District has committed 100 percent of Fund 461 Campus Activity Funds’ fund balance.

Assigned fund balance – amounts the District intends to use for a specific purpose. Intent can be expressed by the District or by an official or body to which the Board of Trustees delegates the authority. Per Board Policy, CE Local, the Board has delegated authority to the Superintendent or Chief Financial Officer to establish fund balance assignments. As of August 31, 2016, assigned fund balance is as follows:

	General Fund
Average Daily Attendance Adjustment	\$ 49,743
Board Room Renovations	500,000
Budget Adjustment for Overtime	1,000,000
Campus Budget Carryover	90,373
Campus Match for Fixed Asset Replacements	255,665
Capital and Lifecycle Expenditures	3,486,037
Contingency - Unanticipated Deficits or Revenue	
Reductions for Adverse Economic Conditions	30,708,195
Contingency Liability - Internal Revenue Service (IRS)	116,000
District Personnel Growth	1,068,025
Fine Arts Enhancements	500,000
Insurance Deductibles	4,590,603
Legal Fees Contingency	100,000
Mid Year Hires	750,000
Outstanding Encumbrances	951,776
Potential Land Acquisition/Renovations	10,000,000
Technology Initiatives	1,559,067
Total Assigned Fund Balance	<u>\$ 55,725,484</u>

Unassigned fund balance – amounts that are available for any purpose. Positive amounts are reported only in the general fund. The District strives for a minimum unassigned General Fund Balance of ten to fifteen percent of operating expenditures. In the Debt Service Fund, the District’s goal is to have a fund balance of fifteen percent of debt service expenditures.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

Note 1 - Summary of Significant Accounting Policies (continued)

Data Control Codes

The Data Control Codes refer to the account code structure prescribed by the Texas Education Agency (TEA) in the Financial Accountability System Resource Guide. TEA requires school districts to display these codes in the financial statements filed with the Agency in order to insure accuracy in building a statewide database for policy development and funding plans.

Deferred outflows/inflows of resources

Deferred outflows and inflows of resources are reported in the statement of financial position as described below:

A deferred outflow of resources is a consumption of a government's net assets (a decrease in assets in excess of any related decrease in liabilities or an increase in liabilities in excess of any related increase in assets) by the government that is applicable to a future reporting period. The District has two items that qualify for reporting in this category:

- Deferred outflows of resources for refunding – Reported in the government-wide statement of net position, this deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.
- Deferred outflows of resources for pension – Reported in the government wide financial statement of net position, this deferred outflow results from pension plan contributions made after the measurement date of the net pension liability and the results of 1) differences between projected and actual earnings on pension plan investments; 2) changes in actuarial assumptions; 3) differences between expected and actual actuarial experiences and 4) changes in the District's proportional share of pension liabilities. The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the next fiscal year. The deferred outflows resulting from differences between projected and actual earnings on pension plan investments will be amortized over a closed five year period. The remaining pension related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan.

A deferred inflow of resources is an acquisition of a government's net assets (an increase in assets in excess of any related increase in liabilities or a decrease in liabilities in excess of any related decrease in assets) by the government that is applicable to a future reporting period. The District has two items that qualify for reporting in this category:

- Deferred inflows of resources for unavailable revenues - Reported only in the governmental funds balance sheet, unavailable revenues from property taxes arise under the modified accrual basis of accounting. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.
- Deferred inflows of resources for pension – Reported in the government wide financial statement of net position, these deferred inflows result primarily from 1) changes in actuarial assumptions; 2) differences between expected and actual actuarial experiences and 3) changes in the District's proportional share of pension liabilities. These pension related deferred inflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan.

Note 1 - Summary of Significant Accounting Policies (continued)

Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Use of Estimates

The presentation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Implementation of New Standards

In the current fiscal year, the District implemented the following new standards. The applicable provisions of these new standards are summarized below. Implementation is reflected in the financial statements and the notes to the financial statements.

GASB Statement No. 72, *Fair Value Measurement and Application*, addresses accounting and financial reporting issues related to fair value measurements. The definition of *fair value* is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This Statement provides guidance for determining a fair value measurement for financial reporting purposes. This Statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements.

GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*, clarifies the application of certain provisions of Statement No. 68 with regard to information that is required to be presented as notes to the 10-year schedules of required supplementary information about investment-related factors that significantly affect trends in the amounts reported.

GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, addresses accounting and financial reporting for certain external investment pools and pool participants. Specifically, it establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. This Statement establishes additional note disclosure requirements for qualifying external investment pools that measure all of their investments at amortized cost for financial reporting purposes and for governments that participate in those pools. Those disclosures include information about any limitations or restrictions on participant withdrawals.

Note 2 - Deposits and Investments (continued)

Cash Deposits

The District's funds are required to be deposited and invested under the terms of a depository contract pursuant to the Texas School Depository Act. The depository bank pledges securities which comply with state law and these securities are held for safekeeping and trust with the District's and the depository banks' agent bank. The pledged securities are approved by the Texas Education Agency and shall be in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance. The District's cash balance as of August 31, 2016 was properly insured and collateralized with securities held by the District's agent in the District's name.

Investments

The District's investment policy is in accordance with the Public Funds Investment Act, the Public Funds Collateral Act, and federal and state laws. The District further limits its investments to obligations of the U.S. Treasury or the State of Texas, certain U.S. Agencies, certificates of deposit, collateralized mortgage obligations, no-load money market mutual funds, certain municipal securities, repurchase agreements, or investment pools.

For fiscal year 2016, the District invested in the State of Texas TexPool, Lone Star Investment Pool, and Local Government Investment Cooperative (LOGIC).

TexPool is a public funds investment pool created by the Texas Treasury Safekeeping Trust Company (Trust Company) to provide a safe environment for the placement of local government funds in authorized short-term, fully collateralized investments, including direct obligations of, or obligations guaranteed by, the United States or State of Texas or their agencies; federally insured certificates of deposit issued by Texas banks or savings and loans; and fully collateralized direct repurchase agreements secured by United States Government agency securities and placed through a primary government securities dealer.

The Trust Company was incorporated by the State Treasurer by authority of the Texas Legislature as a special purpose trust company with direct access to the services of the Federal Reserve Bank to manage, disburse, transfer, safekeep, and invest public funds and securities more efficiently and economically. The State Comptroller of Public Accounts exercises oversight responsibility over TexPool. Oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters. TexPool operates in a manner consistent with the Security and Exchange Commission's Rule 2a7 of the Investment Company Act of 1940. TexPool uses amortized cost rather than fair value to report net position to compute share prices. The fair value of the position in TexPool is the same as the value of TexPool shares. Accordingly, the District's investments in TexPool are stated at cost, which approximates fair value. TexPool is currently rated AAAM by Standard and Poor's. This rating indicates excellent safety and a superior capacity to maintain principal value and limit exposure to loss.

Note 2 - Deposits and Investments (continued)

Investments (continued)

The First Public (Lone Star Investment Pool) is a public funds investment pool established in accordance with the Interlocal Cooperation Act, Chapter 791, Texas Government Code, and the Public Funds Investment Act, Chapter 225, Texas Government Code. First Public is governed by trustees comprised of active participants in First Public. The Board of Trustees for First Public has the responsibility for adopting and monitoring compliance with the investment policy, of appointing investment officers, of overseeing the selection of an investment advisor, custodian, investment consultant, administrator and other service providers. First Public is rated AAA by Standard & Poor’s.

Local Government Investment Cooperative (“LOGIC” or the “Cooperative”) was organized in conformity with the Inter-local Cooperation Act, Chapter 791 of the Texas Government Code, and operates under the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. Participation in the Cooperative is limited to those eligible Government Entities which have become parties to the Participation Agreement. The Cooperative’s governing body is a six-member Board of Directors (the “Board”) comprised of employees, officers or elected officials of participant Government Entities or individuals who do not have a business relationship with the Cooperative and are qualified to advise it. A maximum of two advisory board members represent the Co-Administrators of the Cooperative. The Board has entered into a contract with First Southwest Asset Management, Inc. and JPMorgan Asset Management, Inc. to provide administrative, investment management fund accounting, transfer agency, participant and marketing services for the Cooperative. In compliance with the Public Funds Investment Act, all portfolios will maintain a AAA or equivalent rating from at least one nationally recognized rating agency. LOGIC has been assigned a rating of AAAM by Standard & Poor’s.

In accordance with GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, the Local Government Investment Pools do not have any limitations and restrictions on withdrawals such as notice periods or maximum transaction amounts. These pools do not impose any liquidity fees or redemption gates.

At year-end, the District’s cash and investments balances and the weighted average maturity of these investments were as follows:

	Fair Value	Weighted Average Maturity (Days)
Cash and deposits	\$ 6,208,857	N/A
Investments		
Local Government Investment Pools		
LOGIC	602,014	42
TexPool	919,236	37
Lone Star	143,624,082	41
Total Investments	<u>145,145,332</u>	41
Total Cash and Investments	<u>\$ 151,354,189</u>	41

Note 2 - Deposits and Investments (continued)

Interest Rate Risk:

Interest rate risk is the risk that changes in interest rates may adversely affect the value of the investments. The District monitors interest rate risk utilizing weighted average maturity analysis. In accordance with its investment policy, the District reduces its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio as a whole to no more than 360 days, with the exception of bond proceeds that are matched to a specific cash flow; diversification; and by holding securities to maturity. In addition, the District shall not directly invest in an individual security maturing more than twenty-four months from the date of purchase.

Credit Risk:

State law and the District's investment policy limits investments in all categories to top ratings issued by nationally recognized statistical rating organizations. As of August 31, 2016, the District's investment in TexPool was rated AAAM by Standard and Poor's. The District's investments in Lone Star Corporate Overnight Plus Fund and LOGIC were rated AAAs and AAAM, respectively, by Standard and Poor's.

Concentration of Credit Risk:

The District's investment policy requires the investment portfolio to be diversified in terms of investment instruments, maturity scheduling, and financial institutions in order to reduce the risk of loss resulting from over-concentration of assets in a specific class of investments, specific maturity, or specific issuer.

Note 3 - Receivables

Receivables as of year-end for the District's individual major and non-major funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	<u>General Fund</u>	<u>Debt Service Fund</u>	<u>Child Nutrition Fund</u>	<u>Other Governmental Funds</u>	<u>Total</u>
Property Taxes	\$ 8,687,986	\$ 1,652,675	\$ -	\$ -	\$ 10,340,661
Due from other governments	5,944,603	382,554	459,980	2,199,838	8,986,975
Other	480,590	-	15,970	1,999	498,559
Gross Receivables	15,113,179	2,035,229	475,950	2,201,837	19,826,195
Less allowance for doubtful accounts	(1,272,245)	(214,845)	-	-	(1,487,090)
Net Total Receivables	<u>\$ 13,840,934</u>	<u>\$ 1,820,384</u>	<u>\$ 475,950</u>	<u>\$ 2,201,837</u>	<u>\$ 18,339,105</u>

This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The District has only one type of item at the fund financial statement level, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

In addition, the District records unearned revenue for grant funds received in advance but not have been earned.

GALENA PARK INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS (continued)

Exhibit F-1

Note 3 - Receivables (continued)

At the end of the current fiscal year, the District's deferred inflows related to unavailable property taxes and unearned revenues reported in the governmental funds were as follows:

	<u>Unavailable</u>	<u>Unearned</u>
Delinquent property taxes receivable (General Fund)	\$ 7,415,741	\$ -
Delinquent property taxes receivable (Debt Service Fund)	1,437,830	-
Grant funds received prior to meeting all eligibility requirements	-	168,833
	<u>\$ 8,853,571</u>	<u>\$ 168,833</u>

Note 4 - Capital Assets

Capital asset activity for the year ended August 31, 2016, was as follows:

	<u>Balance</u> <u>September 1,</u> <u>2015</u>	<u>Additions</u>	<u>(Retirements)</u> <u>and Transfers</u>	<u>Balance</u> <u>August 31, 2016</u>
Capital assets, not being depreciated				
Land	\$ 14,045,830	\$ 3,645,384	\$ -	\$ 17,691,214
Total Capital Assets, not being depreciated	<u>14,045,830</u>	<u>3,645,384</u>	<u>-</u>	<u>17,691,214</u>
Capital assets, being depreciated				
Buildings and improvements	343,695,976	-	46,401	343,742,377
Furniture and equipment	43,958,793	2,254,380	(19,908,925)	26,304,248
Vehicles	10,491,699	1,549,491	(431,191)	11,609,999
Total Capital Assets, being depreciated	<u>398,146,468</u>	<u>3,803,871</u>	<u>(20,293,715)</u>	<u>381,656,624</u>
Less accumulated depreciation for:				
Buildings and improvements	(130,852,663)	(8,090,825)	(59,559)	(139,003,047)
Furniture and Equipment	(28,227,959)	(2,394,499)	17,848,539	(12,773,919)
Vehicles	(7,239,307)	(724,796)	508,215	(7,455,888)
Total Accumulated Depreciation	<u>(166,319,929)</u>	<u>(11,210,120)</u>	<u>18,297,195</u>	<u>(159,232,854)</u>
Governmental Capital Assets	<u>\$ 245,872,369</u>	<u>\$ (3,760,865)</u>	<u>\$ (1,996,520)</u>	<u>\$ 240,114,984</u>

Depreciation expense was charged to functions/programs of the District as follows:

<u>Function</u>	<u>Depreciation</u> <u>Expense</u>
11 Instruction	\$ 4,232,131
12 Instructional resources and media services	220,675
13 Curriculum and staff development	12,506
21 Instructional leadership	78,556
23 School leadership	135,575
31 Guidance, counseling and evaluation services	43,584
32 Social work services	7,658
33 Health services	34,127
34 Student transportation	635,862
35 Food Services	1,284,044
36 Extracurricular activities	525,290
41 General administration	108,052
51 Facilities maintenance and operations	3,301,827
52 Security and monitoring services	55,660
53 Data processing services	528,555
61 Community services	6,018
	<u>\$ 11,210,120</u>

Note 5 - Interfund Receivables, Payables, and Transfers

Interfund balances consist of short-term lending/borrowing arrangements that result primarily from payroll, warehouse ordering and other regularly occurring charges that are paid by the general fund and then charged back to the appropriate other fund. Activity between the debt service fund and the capital projects fund results primarily from the capital projects fund interest earnings that are used for debt service payments. Additionally, some lending/borrowing may occur between the general fund, child nutrition fund and two or more non-major governmental funds.

The composition of interfund balances as of August 31, 2016, is as follows:

	<u>Interfund Receivable</u>	<u>Interfund Payable</u>
General Fund	\$ 7,940,583	\$ 282,023
Debt Service Fund	21,836	201
Child Nutrition Fund	-	5,719,274
Nonmajor Governmental Funds	5,874	1,967,795
Fiduciary Funds	1,000	-
	<u>\$ 7,969,293</u>	<u>\$ 7,969,293</u>

Interfund transfers are defined as “flows of assets without equivalent flow of assets in return and without a requirement for repayment.” The District did not have any significant interfund transfers for the year ended August 31, 2016.

Note 6 - Long-term Liabilities

Changes in Long-term Liabilities

Long-term liability activity for the year ended August 31, 2016, was as follows:

	<u>Balance September 1, 2015</u>	<u>Issued and Additions</u>	<u>Retired and Refunded</u>	<u>Balance August 31, 2016</u>	<u>Due Within One Year</u>
Bonds Payable					
General Obligation Bonds	\$ 177,169,351	\$ -	\$ (11,511,817)	\$ 165,657,534	\$ 10,217,501
Plus: Premiums and discount on issuance of Bonds	5,233,360	-	(796,281)	4,437,079	-
Qualified Zone Academy Bonds	2,111,352	-	(731,519)	1,379,833	344,959
Total Bonds Payable	184,514,063	-	(13,039,617)	171,474,446	10,562,460
Accretion on Compound Interest Bonds	54,215,247	5,078,998	(2,503,184)	56,791,061	3,737,499
Compensated Absences	1,209,750	267,982	(177,702)	1,300,030	286,007
	<u>\$ 239,939,060</u>	<u>\$ 5,346,980</u>	<u>\$ (15,720,503)</u>	<u>\$ 229,565,537</u>	<u>\$ 14,585,966</u>

Note 6 - Long-term Liabilities (continued)

Change in Long-term Liabilities (continued)

The District issues general obligation bonds to provide funds for the construction and equipment of school facilities, buses, and to refund general obligation bonds. General obligation bonds are direct obligations and pledge the full faith and credit of the District.

The following is a summary of changes in the general obligation bonds for the fiscal year:

<u>Bond Series</u>	<u>Issue Amount</u>	<u>Interest Rate (%)</u>	<u>Matures</u>	<u>Amount Outstanding</u>
1996 Unlimited Tax School Bldg & Refunding Bonds	\$ 40,054,475	4.40-6.425	2031	\$ 10,591,796
2002 Unlimited Tax School Bldg & Refunding Bonds	29,496,438	3.00-5.00	2032	16,626,438
2003 Maintenance Tax Note ("QZAB")	8,000,000	0.13	2019	1,379,834
2007 Unlimited Tax School Bldg & Refunding Bonds	68,790,870	3.62-4.54	2033	48,295,000
2008 Unlimited Tax School Building Bonds	18,000,000	4.50-5.25	2034	16,205,000
2010 Unlimited Tax School Building Bonds	17,000,000	4.00-5.00	2034	16,375,000
2011 Unlimited Tax School Building Bonds	9,250,000	2.00-4.00	2026	8,550,000
2012 Unlimited Tax Refunding Bonds	9,234,299	2.50-3.25	2032	9,234,299
2013 Unlimited Tax Refunding Bonds	9,440,000	3.00-3.75	2032	3,785,000
2013 Unlimited Tax Refunding Taxable Bonds	28,550,000	4.00-4.50	2021	19,230,000
2014 Unlimited Tax Refunding Bonds	8,970,000	2.00-3.25	2029	8,550,000
2015 Unlimited Tax Refunding Bonds	9,505,000	2.00-4.00	2026	8,215,000
	Total Bonds Payable			167,037,367
	Plus: Unamortized Premiums on Issuance			4,437,079
				171,474,446
	Less: Current Portion			(10,562,460)
				<u>\$ 160,911,986</u>

Annual debt service requirements to maturity for general obligation bonds are as follows:

<u>Year Ending August 31,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2017	\$ 10,562,460	\$ 5,896,580	\$ 16,459,040
2018	10,869,482	5,658,798	16,528,280
2019	11,155,712	5,334,834	16,490,546
2020	10,806,567	5,463,959	16,270,526
2021	11,436,758	4,253,826	15,690,584
2022-2026	53,245,242	15,583,350	68,828,592
2027-2031	27,924,020	8,538,488	36,462,508
2032-2036	31,037,126	3,131,634	34,168,760
	<u>\$ 167,037,367</u>	<u>\$ 53,861,469</u>	<u>\$ 220,898,836</u>
Less Current Portion	<u>10,562,460</u>		
Long Term Debt	<u>\$ 156,474,907</u>		

Note 6 - Long-term Liabilities (continued)

Change in Long-term Liabilities (continued)

In prior years, the District defeased certain outstanding bonds by placing proceeds of new bonds in irrevocable escrow accounts to provide for all future debt service payments on the old bonds. Accordingly, the escrow accounts to provide for all future bonds are not included in the District’s financial statements. At August 31, 2016, \$31,790,000 of refunded bonds outstanding is considered defeased.

Accreted Interest on Premium Compound Interest Bonds

A portion of the bonds sold in the Series 1996, 2002, 2012 and 2014 refunding bond issues were capital appreciation bonds commonly referred to as “premium compound interest bonds.” The District annually records the appreciation of bond principal for the accreted value of the bonds through maturity of the issue. The interest of these bond series will be paid upon maturity. The following table summarizes the significant features of the individual bonds, by issue:

Capital Appreciation Bonds	Maturity	Maturity Value of Bonds	Original Bond Principal Amount	Accreted Interest On Bonds	Accreted Value of Bonds at Year End
1996	2017-2031	\$ 80,840,000	\$ 13,279,475	\$ 33,824,779	\$ 47,104,254
2002	2022-2032	79,000,000	16,626,438	22,290,508	38,916,946
2012	2017	1,885,000	1,769,299	91,988	1,861,287
2014	2020	995,000	330,000	583,786	913,786
		<u>\$ 162,720,000</u>	<u>\$ 32,005,212</u>	<u>\$ 56,791,061</u>	<u>\$ 88,796,273</u>

Note 7 - Revenues from Local, Intermediate, and Out-of-State Sources

During the current year, revenues from local and intermediate sources consisted of the following:

	General Fund	Debt Service Fund	Child Nutrition Fund	Nonmajor Governmental Funds	Total Governmental Funds
Property Taxes	\$ 100,934,050	\$ 21,891,687	\$ -	\$ -	\$ 122,825,737
Investment Income	615,961	38,945	32,594	-	687,500
Co-curricular Student Activities	250,989	-	-	1,061,783	1,312,772
Food Sales	-	-	2,333,083	-	2,333,083
Other	782,906	-	6,539	497,075	1,286,520
	<u>\$ 102,583,906</u>	<u>\$ 21,930,632</u>	<u>\$ 2,372,216</u>	<u>\$ 1,558,858</u>	<u>\$ 128,445,612</u>

Note 8 - Defined Benefit Pension Plan

Plan Description

The District participates in a cost-sharing multi-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description in above.

Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Note 8 - Defined Benefit Pension Plan (continued)

Contributions (continued)

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 through 2017. The 83rd Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2014 and 2015. The 84th Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2016 and 2017.

	Contribution Rates	
	2016	2015
Member (Employee)	7.20%	6.70%
District (Employer)	6.80%	6.80%
Non-employer contributing agency (State)	6.80%	6.80%

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA). Contributions and pension expense for all contributors were as follows:

	Measurement Year (2015)	Fiscal Year (2016)
	Contributions Required and Made	TRS Contributions
Member (Employee)	\$ 9,287,817	\$ 10,485,648
District (Employer)	4,137,550	4,714,247
Non-employer contributing agency (State)	6,765,607	6,956,983

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

Note 8 - Defined Benefit Pension Plan (continued)

Contributions (continued)

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district or charter school does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

Actuarial Assumptions

The total pension liability in the August 31, 2015 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2015
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Discount Rate	8.00%
Long-term expected Investment Rate of Return*	8.00%
Inflation	2.50%
Salary Increases*	3.50% to 9.50%
Payroll Growth Rate	2.50%
Benefit changes during the year	None
Ad hoc post-employment benefit changes	None

The actuarial methods and assumptions are based primarily on a study of actual experience for the four year period ending August 31, 2014 and adopted on September 24, 2015.

Discount Rate

The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 8%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Note 8 - Defined Benefit Retirement Plan (continued)

Discount Rate (continued)

Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2015 are summarized below:

Asset Class	Target Allocation	Real Return Geometric Basis	Long Term Expected Portfolio Real Rate of Return*
Global Equity			
U.S	18%	4.6%	1.0%
Non-U.S. Developed	13%	5.1%	0.8%
Emerging Markets	9%	5.9%	0.7%
Directional Hedge Funds	4%	3.2%	0.1%
Private Equity	13%	7.0%	1.1%
Stable Value			
U.S. Treasuries	11%	0.7%	0.1%
Absolute Return	0%	1.8%	0.0%
Stable Value Hedge Funds	4%	3.0%	0.1%
Cash	1%	-0.2%	0.0%
Real Return			
Global Inflation Linked Bonds	3%	0.9%	0.0%
Real Assets	16%	5.1%	1.1%
Energy and Natural Resources	3%	6.6%	0.2%
Commodities	0%	1.2%	0.0%
Risk Parity			
Risk Parity	5%	6.7%	0.3%
Inflation Expectation			2.2%
Alpha			1.0%
Total	100%		8.7%

* *The Expected Contribution to Returns incorporates the volatility drag resulting from the conversion between Arithmetic and Geometric mean returns.*

Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (8%) in measuring the 2015 Net Pension Liability.

	Discount Rate		
	1% Decrease (7%)	Current Rate (8%)	1% Increase (9%)
District's proportional share of the net pension liability	\$ 77,390,595	\$ 49,393,685	\$ 26,073,999

Note 8 - Defined Benefit Retirement Plan (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At August 31, 2016, the District reported a liability of \$49,393,685 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportion of the net pension liability	0.1397%
District's proportionate share of the net pension liability	\$ 49,393,685
State's proportionate share of the net pension liability associated with the District	<u>80,743,272</u>
Total	<u>\$ 130,136,957</u>

The net pension liability was measured as of August 31, 2015 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2014 thru August 31, 2015.

At August 31, 2015 the employer's proportion of the collective net pension liability was 0.1397% which was a increase from its proportion measured as of August 31, 2014 of 0.0961%.

Changes since the Prior Actuarial Valuation

The following are changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period:

Economic Assumptions

1. The inflation assumption was decreased from 3.00% to 2.50%.
2. The ultimate merit assumption for long-service employees was decreased from 1.25% to 1.00%.
3. In accordance with the observed experience, there were small adjustments in the service based promotional/longevity component of the salary scale.
4. The payroll growth assumption was lowered from 3.50% to 2.50%.

Mortality Assumptions

5. The post-retirement mortality tables for non-disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.
6. The post-retirement mortality tables for disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.
7. The pre-retirement mortality tables for active employees were updated to use 90% of the recently published RP-2014 mortality table for active employees. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.

Note 8 - Defined Benefit Retirement Plan (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

Other Demographic Assumptions

8. Previously, it was assumed 10% of all members who had contributed in the past 5 years to be an active member. This was an implicit rehire assumption because teachers have historically had a high incidence of terminating employment for a time and then returning to the workforce at a later date. This methodology was modified to add a more explicit valuation of the rehire incidence in the termination liabilities, and therefore these 10% are no longer being counted as active members.
9. There were adjustments to the termination patterns for members consistent with experience and future expectations. The termination patterns were adjusted to reflect the rehire assumption. The timing of the termination decrement was also changed from the middle of the year to the beginning to match the actual pattern in the data.
10. Small adjustments were made to the retirement patterns for members consistent with experience and future expectations.
11. Small adjustments to the disability patterns were made for members consistent with experience and future expectations. Two separate patterns were created based on whether the member has 10 years of service or more.
12. For members that become disabled in the future, it is assumed 20% of them will choose a 100% joint and survivor annuity option.

Actuarial Methods and Policies

13. The method of using celled data in the valuation process was changed to now using individual data records to allow for better reporting of some items, such as actuarial gains and losses by source.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended August 31, 2016, the District recognized pension expense of \$7,789,776 as well as revenue of \$11,504,617 representing pension expense incurred by the State on behalf of the District.

Note 8 - Defined Benefit Retirement Plan (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

At August 31, 2016, the District reported its proportionate share of the TRS’s deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 330,129	\$ 1,898,243
Changes of assumptions	1,387,539	1,762,150
Net difference between projected and actual earnings on pension plan investments	6,280,897	-
Changes in proportion and differences between District contributions and proportionate share of contributions	9,965,214	5,595
District contributions subsequent to the measurement date	4,714,248	
Total	<u>\$ 22,678,027</u>	<u>\$ 3,665,988</u>

The \$4,714,248 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended August 31, 2017. The net amounts of the employer’s balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended August 31,	
2017	\$ (2,494,540)
2018	(2,494,540)
2019	(2,494,540)
2020	(4,455,762)
2021	(1,394,034)
2022	(964,375)
	<u>\$ (14,297,791)</u>

Note 9 - Retiree Health Care

Plan Description

The Galena Park Independent School District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit postemployment health care plan administered by the Teacher Retirement System of Texas (TRS). TRS-Care Retired Plan provides health care coverage for certain persons (and their dependents) who retired under TRS. The statutory authority for the program is Texas Insurance Code, Chapter 1575 that grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants.

Note 9 - Retiree Health Care (continued)

Plan Description (continued)

TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701, or by calling the TRS Communications Department at 1-800-223-8778, or by downloading the report from the TRS Internet website, www.trs.state.tx.us, under the TRS Publications heading.

Funding Policy

Contribution requirements are not actuarially determined but are legally established each biennium by the Texas legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. The State of Texas contribution rates were 1.0% for 2014-2016, and 0.50% for 2013. Active public school employee contribution rates were 0.65% of public school payroll, with school districts contributing a percentage of payroll set at 0.55% for fiscal years 2016, 2015, and 2014. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than .25% or greater than .75% of the salary of each active employee of the public school. For staff members funded by federal programs, the federal programs are required to contribute 1.0%.

Contributions made by the State, District, and staff members, for the years ended August 31, 2016, 2015, and 2014, are as follows:

For the Year Ended August 31,	State TRS Care Contributions Made on Behalf of the District	District Required Contributions to TRS Care	Staff Members Contributions to TRS Care	Total Covered Payroll
2016	\$ 1,340,578	\$ 916,754	\$ 946,632	\$ 145,634,727
2015	1,272,995	875,679	901,067	138,624,105
2014	1,229,799	789,064	846,610	130,249,117

For the current fiscal year and each of the past two years, the District's actual contributions were equal to 100 percent of the required contributions. The contributions made by the State on behalf of the District have been recorded in the governmental funds financial statements of the District as both state revenues and expenditures. These contributions are the legal responsibility of the State.

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003 established prescription drug coverage for Medicare beneficiaries know as Medicare Part D. Under Medicare Part D, TRS-Care receives retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. These payments are recorded as equal revenues and expenditures in the governmental funds financial statements of the District. For the years ended August 31, 2016, 2015, and 2014 the subsidy payments received by TRS-Care on behalf of the District are as follows:

Fiscal Year	Medicare Part D
2016	\$ 574,248
2015	580,483
2014	347,382

Note 10 - Risk Management

Property/Liability

The District is exposed to various risks of loss related to property/liability losses for which the District carries commercial insurance. In addition, the District is a member of the Texas Association of School Boards Joint Self-Insurance Fund (Fund). The fund was created to formulate, develop and administer a program of modified self-funding for the property and/or liability coverage for its membership, provide claims administration, and develop a comprehensive loss control program. The District pays contributions to the Fund for its general and educators' liability and fleet comprehensive, collision, and liability coverage. The District's agreement with the Fund will be self-sustaining through member premiums and will provide, through commercial companies, reinsurance contracts. There has not been any significant reduction of insurance coverage in the last three years. Employees of the District are covered by a fully-insured medical and dental plan through United Health Care. The District and employee contributions are paid directly to the carrier and the carrier assumes all liability to the plan.

Note 11 - Contingent Liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial. From time to time, the District is a defendant in legal proceedings relating to its operations as a school district. In the best judgment of the District's management, the outcome of any present legal proceedings will not have any adverse material effect on the accompanying financial statements.

Note 12 - Arbitrage

In accordance with the provisions of Section 148(f) of the Internal Revenue Code of 1986, as amended, bonds must satisfy certain arbitrage rebate requirements. Positive arbitrage is the excess of (1) the amount earned on investments purchased with bond proceeds over (2) the amount that such investments would have earned had such investments been invested at a rate equal to the yield on the bond issue. In order to comply with the arbitrage rebate requirements, positive arbitrage must be paid to the U.S. Treasury at the end of each five year anniversary date of the bond issue. As of August 31, 2016, there was no liability related to arbitrage.

Note 13 - Subsequent Event

The District issued \$98,595,000 of Unlimited Tax School Building and Refunding Bonds, Series 2016 in October 2016. Proceeds from the sale of the bonds will be used to (i) acquire, construct, renovate and equip school buildings in the District and the purchase of land for school sites, (ii) refund a portion of the District's outstanding bonds for debt service savings, and (iii) pay the costs of issuing the bonds.

The District adopts annual appropriations type budgets for the General Fund, Food Service Special Revenue Fund, and the Debt Service Fund using the same method of accounting as for financial reporting, as required by law. The remaining Special Revenue Funds (primarily federal grant programs) utilize a managerial type budget approved at the fund level by the Board of Trustees upon acceptance of the grants. These grants are subject to Federal, State and locally imposed project length budgets and monitoring through submission of reimbursement reports.

Expenditures may not legally exceed budgeted appropriations at the function or activity level. Expenditure requests which would require an increase in total budgeted appropriations must be approved by the Trustees through formal budget amendment. State law prohibits trustees from making budget appropriations in excess of funds available and estimated revenues. State law also prohibits amendment of the budget after fiscal year end. Supplemental appropriations were made to the General Fund during the fiscal year ended August 31, 2016.

The administrative level at which responsibility for control of budgeted appropriations begins is at the organizational level within each function of operations. The finance department reviews closely the expenditure requests submitted by the various organizational heads (principal and department heads) throughout the year to ensure proper spending compliance. No public funds of the District shall be expended in any manner other than as provided for in the budget adopted by the Board of Trustees.

The official school budget was prepared for adoption for budgeted governmental fund types by August 27, 2015. The budget was formally adopted by the Board of Trustees at a duly advertised public meeting prior to the expenditure of funds. The final amended budget is filed with the Texas Education Agency (TEA) through inclusion in the annual financial and compliance report.

Encumbrance accounting is utilized in all government fund types. Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at year-end and encumbrances outstanding at that time are appropriately provided for in the subsequent year's budget.

GALENA PARK INDEPENDENT SCHOOL DISTRICT
SCHEDULE OF THE DISTRICT'S PROPORTIONATE SHARE OF
THE NET PENSION LIABILITY
Teacher Retirement System of Texas
For the Last Two Measurement Years Ended August 31

Exhibit G-4

	<u>2015</u>	<u>2014</u>
District's proportion of the net pension liability	0.1397%	0.0961%
District's proportionate share of the net pension liability	\$ 49,393,685	\$ 25,667,021
State's proportionate share of the net pension liability associated with the District	<u>80,743,272</u>	<u>68,611,587</u>
Total	<u>\$ 130,136,957</u>	<u>\$ 94,278,608</u>
District's covered-employee payroll (for Measurement Year)	\$ 138,624,105	\$ 130,249,117
District's proportionate share of the net pension liability as a percentage of it's covered employee payroll	35.63%	19.70%
Plan fiduciary net position as a percentage of the total pension liability*	78.43%	83.25%
Plan's net pension liability as a percentage of covered-employee payroll*	91.94%	72.89%

Note: Ten years of data should be presented in this schedule but data was unavailable prior to 2014.

Net pension liability and related ratios will be presented prospectively as data becomes available.

Teacher Retirement System of Texas

Last Nine Fiscal Years Ended August 31

	<u>2016</u>	<u>2015</u>	<u>2014</u>	<u>2013</u>	<u>2012</u>
Contractually required contributions	\$ 4,714,247	\$ 4,140,459	\$ 2,436,154	\$ 2,012,917	\$ 2,078,627
Contributions in relation to the contractual required contributions	<u>4,714,247</u>	<u>4,140,459</u>	<u>2,436,154</u>	<u>2,012,917</u>	<u>2,078,627</u>
Contribution deficiency (excess)	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>
District's covered employee payroll	\$ 145,634,727	\$ 138,624,105	\$ 130,249,117	\$ 126,142,312	\$ 127,628,389
Contributions as a percentage of covered employee payroll	3.24%	2.99%	1.87%	1.60%	1.63%

	<u>2011</u>	<u>2010</u>	<u>2009</u>	<u>2008</u>
Contractually required contributions	\$ 2,130,068	\$ 3,091,417	\$ 1,963,291	\$ 1,512,630
Contributions in relation to the contractual required contributions	<u>2,130,068</u>	<u>3,091,417</u>	<u>1,963,291</u>	<u>1,512,630</u>
Contribution deficiency (excess)	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>
District's covered employee payroll	\$ 133,037,350	\$ 132,200,257	\$ 123,970,078	\$ 117,353,282
Contributions as a percentage of covered employee payroll	1.60%	2.34%	1.58%	1.29%

Note: Ten years of data should be presented in this schedule but data was unavailable prior to 2008.

District contributions and related ratios will be presented prospectively as data becomes available.

Effective September 1, 2014, employers who did not contribute Social Security for TRS-eligible employees were required to contribute an additional 1.5% of TRS-eligible compensation which nearly doubled the District's contributions into the Plan. Because the District's proportional share of the plan is determined by its proportional share of contributions, the District recognized a corresponding increase in its share of net pension liability.

Changes of Assumptions

New actuarial assumptions were adopted by the Teacher Retirement System of Texas' Board of Trustees on September 24, 2015 and are effective with the valuation as of August 31, 2015. The major assumptions changes were the adoption of the use of generational mortality for the purpose of predicting future mortality improvement and the reduction in the inflation rate from 3.00% to 2.50%.

Changes of Benefit Terms

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

(This page intentionally left blank.)

OTHER SUPPLEMENTARY INFORMATION

Nonmajor Governmental Funds

Special Revenue Funds

The Special Revenue Funds are used to account for all federal, state and locally-funded grants. These grants are awarded to the District with the purpose of accomplishing specific educational goals. Grants included in the Special Revenue Funds are described below.

Fund Number	Fund Name & Description
205	Head Start – funds used to promote the school readiness of low-income preschool children (ages 3-5), including children of migratory seasonal and farm workers, and infants and toddlers (birth through age 3) by enhancing their cognitive social and emotional development in learning environments that support their growth in language, literacy, mathematics, science, social and emotional functioning, creative art, physical skills and approaches to learning.
206	McKinney - Vento Support for Homeless Education - to ensure the enrollment, attendance and success of homeless children and youth in school.
211	ESEA, Title I, Part A - Basic - supplemental service designed to accelerate the academic achievement of economically disadvantaged students, especially in the tested areas, to ensure that state standards are met on identified campuses.
212	ESEA Title I, Part C – for funds granted for programs benefiting children of migrant agriculture or agriculture-related workers and children of migrant fisherman.
224	IDEA, Part B - Formula - salaries and supplies to aid children with disabilities with low reading achievement.
225	IDEA, Part B - Preschool - aids preschool students with disabilities.
226	IDEA - Part B, High Cost Risk Pool - assists with high need students with disabilities whose direct special education and related services costs exceed \$25,000 per school year.
244	Vocational Education - Basic - funds are for the use of various vocationally-inclined students in regular, disadvantaged and disability classes.
255	ESEA, Title II, Part A - TPTR (Teacher and Principal Training and Recruiting) - supplements the professional development, retention and recruitment programs district-wide, specifically on high needs campuses.
263	ESEA, Title III, Part A - English Language Acquisition - provides additional educational opportunities to supplement programs for students of limited English proficiency and immigrant children by assisting the children to learn English and meet challenging
265	21st Century Community Learning Centers - provides after-school activities for students in elementary through high school.

Nonmajor Governmental Funds (Continued)

Special Revenue Funds (Continued)

Fund Number	Fund Name & Description
288	Gear-Up Grant - provides funds to designed to increase the number of low-income students who are prepared to enter and succeed in postsecondary education.
289	Various Federal Funds - supports and encourages the development of new, self-supporting, community anti-drug coalitions; early childhood summer programs, library grants and wetlands and water education.
397	Advanced Placement Incentives - enhancement of Advanced Placement programs on specific campuses based on student scores on Advanced Placement examinations.
410	Instructional Materials Allotment - provides funds to purchase instructional materials, technological equipment and technology-related services.
427	State Funded Special Revenue Funds - provides funds to help schools fund various programs.
429	Other State Funded Special Revenue Funds - provides funds to help schools fund various programs including mentors and campus awards.
461	Campus Activity - proceeds from fundraising activities, vending sales, corporate and private donations to school-sponsored activities benefiting students and staff of the campus.
481	Other Local Grants - grants from local businesses or organizations to be used for educational activities.
486	Miscellaneous Donations – local donations used for specific education purposes as specified by the donor.

Capital Projects Fund

Fund Number	Fund Name & Description
699	Various capital project funds used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets

STATISTICAL SECTION
(UNAUDITED)

(This page intentionally left blank.)

GALENA PARK INDEPENDENT SCHOOL DISTRICT
STATISTICAL SECTION

The statistical section of the Galena Park Independent School District’s Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District’s economic condition and overall financial health. To assist financial statement users, the information contained within this section is categorized as follows:

	Page
Financial Trends	84
These schedules contain trend information to show how the District’s financial performance and position have changed over time	
Revenue Capacity	94
These schedules contain information to help assess the factors affecting the District’s most significant local revenue source, the property tax.	
Debt Capacity	102
These schedules present information to help assess the affordability of the District’s current debt burden and its ability to issue additional debt in the future.	
Demographic and Economic Information	108
These schedules provide demographic and economic indicators to help in understanding the environment in which the District operates and to facilitate in comparisons over time.	
Operating Information	112
These schedules provide information about the District’s operations and resources to assist in using the financial statement information to better understand and assess the District’s economic condition.	

Sources: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Reports for the relevant year.

* This schedule is prepared in lieu of a Schedule of Tax Revenues by Source, as all tax revenues received by the District are Ad Valorem Taxes.

** Individual local, state and federal programs in excess of \$300,000 are reported separately in this schedule. All others are combined as Other Local, State or Federal Program Revenues. Additionally, prior year information is not restated for programs or grants that exceed \$300,000 in a subsequent year, the amounts remain in Other Local, State or Federal Program Revenues.

*** This schedule includes all Governmental Fund Types

**** Disaster assistance grants received are the result of damage from Hurricane Ike.

(1) Tax rates are per \$100 of taxable assessed value.

Source: Harris County Appraisal District

Note: The real property numbers were derived by using the tax roll for the necessary year and adding the totals for all items designated as "real" in the property use category description.

Personal property represents items not identified as "real" in the property use category description.

Actual value is the market value as reported by HCAD.

2015	112,211,659	109,459,347	97.55%	693,357	110,152,704	98.17%
2016	122,867,017	121,009,127	98.49%		121,009,127	98.49%

- (1) Appraised value less exemptions equal taxable assessed value. The beginning taxable value net of adjustments times the tax rate set by the District's Board of Trustees each fall equals the total net tax levy. The net tax levy for prior years reflects ongoing adjustments applied to that year's tax levy.

Sources: Texas Municipal Report issued by the Municipal Advisory Council of Texas

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the Galena Park Independent School District. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for paying the debt, of each overlapping government.
