Student Academic Achievement Strengths

GPMS offers its students multiple opportunities for students to succeed. GPMS assessment data has led the district in many curricular areas, and students are growing across our campus in all areas. Our Athletic and Fine Arts programs are showing increased numbers in enrollment and are demonstrating more success.

Problem Statements Identifying Student Academic Achievement Needs

Problem Statement 1: More GPMS students need to achieve "Meets" and "Masters" on the state STAAR assessments , and we need more students to exit ESL based on the state TELPAS exam. We want to meet safeguards in all areas too. **Root Cause:** Interventions historically have been based on "bubble" Approaches students only, and we are still struggling to individualize our instruction across the campus.

Problem Statement 2: We need to provide more professional development on a variety of program supports though our campus, based on our specific needs and hold staff accountable for implementing the strategies learned through professional development. **Root Cause:** Teachers need to receive professional development on program supports at campus level and when teachers receive district professional development they do not always have the ability or time to implement it.

Problem Statement 3: We are allowing some students with different educational needs to fall through the cracks. **Root Cause:** Students do not get identified early enough for them to receive the academic and program support they might need, and sometimes teachers do not know how to provide

interventions to these students.

Problem Statement 4: We want all staff to encourage student literacy across campus and the whole building needs to be on the same disciplined plan. **Root**

Cause: Students struggle with reading comprehension in every class, not just in their reading class We need to spend more time with our stakeholders to develop our Campus Improvement Plan. We need a common discipline plan/ policy to follow.

Title I Schoolwide Elements

ELEMENT 1. SWP COMPREHENSIVE NEEDS ASSESSMENT (CNA)

1.1: Comprehensive Needs Assessment

Part of our CNA was developed utilizing the data from a staff survey. The other components were developed by eight campus committees. Teachers were divided into teams of eight different committees that corresponded to the ESSA Title 1 categories. Committees reviewed data pieces and determined campus needs based on these information sources. Their needs assessment was turned into the CPAC.

Meeting dates:

April 12, 2018

May 25, 2018

ELEMENT 2. SWP CAMPUS IMPROVEMENT PLAN (CIP)

2.1: Campus Improvement Plan developed with appropriate stakeholders

Committee teams met to discuss the needs in each one of their categories. Based on data pieces and survey information, committees came up with root causes and problem statements. They analyzed performance objectives for each goal and the strategies that went along with them based on the problem statements and root causes.
